

HOW TO CONNECT YOUR MODEM

NOKIA BEACONS

1. Find the internet connection box (ONTU) inside your unit's electrical cupboard or utility cabinet.
2. Plug the internet cable from the connection box into the blue 'WAN' port on the back of the Nokia Beacon device.
3. Plug the power cable into the Nokia Beacon and switch the power on at the wall.
4. Turn the Nokia Beacon on by sliding the switch underneath or pushing in on the back of the device, you should see a light glow.

HOW TO CONNECT YOUR DEVICES TO WI-FI

YOUR PHONE / TABLET

VIA QR CODE

1. Scan the Interphone QR code located on the front of your Nokia Beacon, by opening your devices camera and holding the QR in focus.
2. Click the link displayed on your camera window screen.
3. Follow the instructions.

If you can't scan the QR code, you can follow the instructions below and manually set up your Wi-Fi connection on your mobile device.

YOUR COMPUTER

MANUAL SELECTION

1. On the bottom of your wireless router, there will be a sticker that has the following information:
 - Wi-Fi Name or Network
 - Wi-Fi Key
2. Navigate to the Wi-Fi connection section of your device.
3. You will see the Wi-Fi Name or Network listed as a network option.
4. Select this, and when prompted, enter the password.
